

Super Simple Butterfly Garden

Approximate size: 10 feet long by 7 feet deep

This garden is a great way to incorporate beautiful, easy-care native plants into the landscape. Much of its impact comes from the repetition of plants with really strong forms, bright colors, and interesting textures. These sun-loving perennials will provide years of enjoyment for you and your lepidopteran friends (butterflies). For more information about gardening for butterflies, see our printable primer “Making Space for Butterflies”, also on the website.

You will need:

- 4 *Eupatorium dubium* “Little Joe”
- 3 *Aster oblongifolius* “Raydon’s Favorite”
- 4 *Coreopsis verticillata*
- 2 *Asclepias incarnata*
- 3 *Asclepias tuberosa*
- 2 *Pycnanthemum tenuifolium*
